

## **LAKSHMI BRAND TREAD WEAR MEASURING RECORDER (LTWR-1)**

**INTRODUCTION:** -To safe guard derailments and accidents, the permanent way Engineer has to monitor various parameters to the Rails, Railway Track and the carriage wheels. Amongst these, the measurements and monitoring of the exact profile of wheel tread is of great importance. Our Tread Wear Measuring Gauge Cum Recorder Model TWR-1 helps and provides an easy method for drawing tread profiles. The Instrument can be easily mounted and dismounted of the wheel. By moving stylus on the Wheel and exact profile of the Tread is reproduced on the paper, mounted on the tracing plate.

### **SPECIAL FEATURES:**

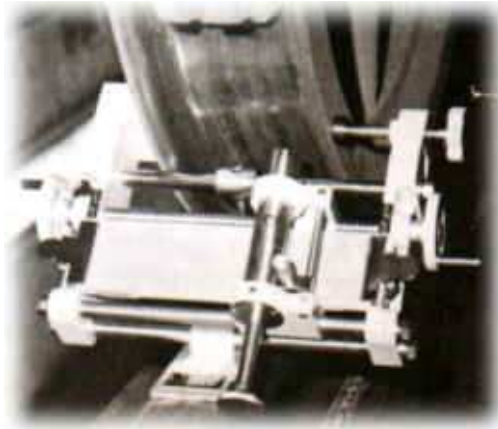

1. Easy to fit.
2. Gives accurate profiles.
3. Light in weight.
4. The tracer is a simple ball point pen.
5. The stylus provides neat recording of the figures in full scale without error.
6. Increased output of the user.
7. Speedy and convenient operations.
8. Easy to draw Wheel Tread Profiles in same scale.
9. Useful for civil as well as mechanical engineers.
10. Robust constructions & beautifully painted.

### **TECHNICAL DATA:**

Wheel diameters from	: 800 mm to 950 mm
Wheel widths	: 125 mm to 135 mm
Weight approximately	: 4.0 kg.

### **TRANSPORTATION WOODEN BOX:**

Made of light wooden flank duly painted and having the position of handle and locking arrangement.

(Right reserve for modification or alteration without notice for betterment of the product)
