

LAKSHMI BRAND WHEEL DISTANCE GAUGE (LWG-1)

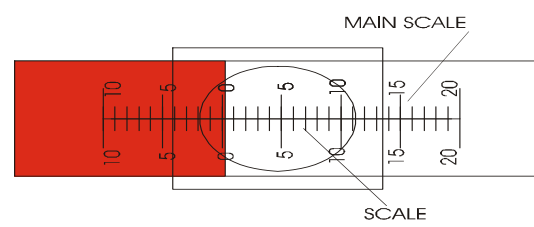

SALIENT FEATURES:

1. Increased output of the user
2. Speedy and convenient operations.
3. Easy to read gauge measuring scale.
4. Have hard steel wheel flange feelers.
5. Sets automatically parallel to the axle.
7. Determines wheel distance with accuracy.
8. Screw clamp provided to set at desired distance.
9. Useful for civil as well as mechanical engineers.
10. Fabricated from 25 mm X 25 mm sq. steel tubing.

TECHNICAL DATA:

| | |
|--------------------------|-----------------|
| Wheel Distance (length) | 1600 mm for BG. |
| Distance Measuring Range | -10 to +20 mm. |
| Accuracy | 1 mm. |
