

D.C Welding generator

(No. TM/SM/20 dated 19.11.1992)

INTRODUCTION:-

Light weight DC welding generator set marketed by “LAKSHMI-MEERUT” is an efficient machine in the hands of permanent way engineers which facilitates him with an easy welding method to re-condition the point & crossings, tong rails, switches etc, at site. The machine requires the need of only one person to operate as it is light weight weighing only 90kg. The mono rail wheel assembly (weighted extra) helps the machine to get carried away from one place to another at different sites in no time. It is also fitted with 04 nos. nylon wheels to move it on cress as well.

TECHNICAL DATA:-

RATED WELDED CURRENT:	200A at 60% duty cycle
INSULATION:	Class F
FUEL:	Gasoline
POWER:	100% OUTPUT
Speed:	3600RPM
Rated Voltage:	220V
Output Type:	AC Single Phase
WINDING:	100% COPPER WIRE
Frequency:	50HZ/60HZ
Rated Power:	3KW
